

**EASY TO USE, EASY
TO LOVE**

DORO 8100 - SIMPLY EASY Simplicity by Scandinavia

WHY DORO

While other brands like to talk about stunning displays, amazing cameras or the latest technology with the cool new name, we like to talk more about simplicity. That's what our fans – people who feel the effects of ageing but remain young at heart – really want. It's why "EASY" is the key building block in every Doro's DNA, shaping every detail into a phone you'll love – including the ability to take great photos and to enjoy them on a big, beautiful screen. They're also expertly tuned to suit the more mature ear.

RESPONSE BY DORO®

Doro brings you much more than a great smartphone. Our unique services enable trusted relatives or friends to quickly and easily manage important settings on your phone, all via an app installed on theirs. These services also keep your support network close. Just one press of your phone's assistance button sends an alarm with your location to a list of people you rely on, sounding a loud, distinct signal on their phones even if placed in 'Do not disturb' mode. More peace of mind for you, and for them.

MEET 'EVA' – EASY, FRIENDLY AND FOR EVERYONE

Eva is Doro's patented, intuitive and action-based interface that makes using Android even easier. Users never need to look around for things they can't find. Eva simply gives them a few clear choices, and then does what the user wishes based on their response. And because she's designed by Doro, Eva makes the technology fun, available and easy for both long-time users and those who are new to Android. Together with Google Assistant, they're the perfect team.

STEP-BY-STEP GUIDE

Using a smartphone for the first time can be daunting. That's why the Doro 8100 shows a step-by-step guide when you first turn it on. It helps you with everything from finding the best settings for your hearing and vision, to connecting with the internet and accessing your Gmail account. It also offers quick and easy tutorials for first-time smartphone users. Assuring and stress-free, it's the perfect start to a new friendship.
